

RECAP: 12 UGLY TRUTHS ABOUT THE “PANDEMIC”

1) The CDC Director said on live TV that vaccines CAN'T PREVENT the transmission of the virus.

2) There has been no proof that SARS-CoV-2 has been isolated in a lab, therefore, no proof that this virus EXISTS as stated by numerous health officials but we still have had to endure numerous restrictions and lockdowns over the last year.

3) The phantom virus has an average 99.9x survival rate for everyone but senior citizens (who are about 95%).

4) The flu, something seniors have been vulnerable to for decades, dropped 99.99% from 2019-2020 flu season (38,000,000) to 2020-2021 flu season (1822). Where did the flu go after all those years? Was it replaced?

5) Masks have been scientifically proven to NOT work at preventing transmission of the phantom virus. But they have facilitated other health problems for those wearing them.

6) The PCR test, used to determine the presence of the virus that HASN'T been isolated, is being used at a cycle rate (above 35) that produces over 97% false positives, and the inventor, Mr. Kary B. Mullis, stated before his untimely death in 2019, that Fauci was a fraud and the the PCR test should never be used as a tool in the “diagnosis of infectious diseases.” He also stated human beings are “full of retrovirus...” and a PCR test at a high enough cycle rate will pick up any viral matter, but retroviruses “never killed anyone before”.

7) VAERS reports have been manipulated, once reported at near 12,000 by CDC (see chart for update), but adjusted to near 6,000 through statistical sleight of hand. Some government whistleblowers have reported that over 45,000 have died from the vaccine. For context, they shut down the vaccine program for Swine Flu after 25% of the population was vaccinated and 53 people died. And don't forget, it's been shown that only 1 to 10% of people ever report a side effect.

8) At one point in 2020, the CDC quietly admitted that only 6% of the reported deaths from the phantom virus were from the virus itself, with the other 94% being due to underlying comorbidities. They scrubbed that admission not long after.

9) It's been reported from whistleblowers inside hospitals, that there is no “code” for adverse reactions to the vaccine, as there has been for other vaccines using their

widely utilized international coding system. This would also suppress already alarming VAERS data.

10) The injection has never been FDA approved, is experimental, and not actually a “vaccine” (it’s gene therapy) since it doesn’t actually prevent contraction or transmission of the phantom, never isolated virus.

11) Reported variants (delta, lambda, and more to come) are now being traced back to the vaccinated, which if true, makes them the “super spreaders”, but of what? The spike protein has been largely implicated as a potential “shedder”, potentially making the vaccinated the REAL pandemic.

12) Despite all this data, the government has offered ridiculous incentives from lotteries to scholarships to encourage people to get the injections, and has moved closer to nationwide mandates and more lockdowns, the latest ultimatum coming at the military as they have been mandated the injection by September 15th.

This the biggest atrocity of all time, and it was coordinated by the authorities you’ve come to trust, in the name of control and dominance by the worlds hyper elite.

“The truth is only abrasive, when you’ve been in bed with the lies.”
